## About Me

I'm a Front-end Developer passionate about building seamless, responsive web applications. With expertise in Next.js, React, and TypeScript, I specialize in crafting user-friendly interfaces and integrating APIs efficiently.

- Short-term goal: Expanding knowledge and deepening technical expertise.
- Long-term goal: Becoming a Fullstack Developer and taking on leadership roles.

## Work Experience

Front-end Developer

BIXSO Company: Solutions for Enterprises

8/2023 - 2/2025(1 year 6 month)

- Developed web applications with Next.js, ensuring smooth performance and a responsive user experience.
- Worked closely with the backend team to integrate RESTful APIs, ensuring seamless data flow and system efficiency.
- Managed application state using Redux, optimizing data handling and improving maintainability.
- Implemented UI designs from Figma, focusing on usability and visual consistency.
- Engaged in development and testing to enhance performance and refine user interactions.
- Identified and resolved technical issues during development, ensuring stable and efficient application operation.

## Technical Skills & Tools

- HTML, CSS, JavaScript (ES6+): Strong foundation in responsive, cross-browser web development.
- TypeScript: Enhances code quality and maintainability.
- ReactJS & Next.js: Proficient in building interactive UIs, SSR, and SSG.
- MUI & Tailwind CSS: Skilled in modern UI frameworks for scalable styling.
- Responsive Design: Ensures optimal experience across devices.
- Problem Solving: Troubleshoots and optimizes code effectively.
- Team Communication: Clear, collaborative, and open to feedback.

## Education History

University of Technology - HUTECH

B.Sc. in Information Technology (10/2014 - 10/2018)

- Specialization: Software Engineering
- Focus: Web development, DSA, and software design
- Notable Project: Full-stack web app (final year)
- Skills: Programming, problem-solving, software development

# Projects

## Livestream Soccer - Saybong.tv

05/2024 - 8/2024

Developed a platform for livestreaming soccer matches, displaying schedules, results, rankings, and highlight videos.

- **Link:** saybong.tv
- **Role:** Front-end Developer
- **Team Size:** 3
- **Responsibilities:** Designed and implemented user interfaces based on Figma designs. Integrated APIs to dynamically display match data. Ensured responsive and cross-browser compatible design. Managed state and context using React's useContext hook.
- **Technologies:** Next.js, TypeScript, i18next, useContext, Material UI, CSS, HTML, JavaScript

## Vdream-Entertainment

02/2024 - 4/2024

Developed a website project introducing the company, using Next.js on the frontend and Laravel on the backend.

- **Link:** <https://www.vdreamentertainment.com/>
- **Role:** Front-end Developer
- **Team Size:** 3
- **Responsibilities:** Built and developed the UX/UI according to Figma design files. Utilized APIs to fetch and display data from the backend. Ensured responsive design and cross-browser compatibility. Managed state and context using React's useContext hook.
- **Technologies:** Next.js, TypeScript, i18next, useContext, Material UI, CSS, HTML, JavaScript

## Teemie - Store and Restaurant Management Application

- **Website:** [teemieapp.com](https://teemieapp.com)
- **App Link:** <https://play.google.com/store/apps/details?id=co.spiritlabs.teemie>
- **Role:** Front-end Developer
- **Team Size:** 4
- **Responsibilities:** Developed and optimized the user interface for a management application designed for stores and restaurants. Implemented responsive design and integrated with backend APIs to manage orders, inventory, and customer data.
- **Technologies:** ReactJS, Redux, CSS, RESTful APIs

## OrderHQ - Online Shopping System from South Korea

- **Website:** [orderhanquoc.com](https://orderhanquoc.com)
- **App Link:** <https://www.facebook.com/watch/?v=10206344951299136>
- **Role:** Front-end Developer
- **Team Size:** 5
- **Responsibilities:** Developed the frontend for an online shopping system catering to Korean products. Focused on designing intuitive user interfaces, integrating payment gateways, and handling product catalogs dynamically.
- **Technologies:** Nextjs, Tailwind, Redux, RESTful APIs
